

Kenstar is a renowned electronic product manufacture company with 63 Sales & Service Dealers, 425 service franchisees and more than 3500 tradepartners.

Challenges	Solutions	Results
Complex applications running on ageing HP-UX platform has to be migrated to Linux based cloud platform.	Platform conversion was done using SWPM tool during Import of Source DB.	Platform conversion was successfully achieved with 100% compatibility of SAP Application.
PRD Systems to be migrated with cut-over data only.	Cutover was done using client copy and table import using BRTOOLS.	PRD system was migrated with 26 hours of downtime.
As it is for dev and QAS.	Migration based on full export import for DEV and TEST Systems.	Project Duration : 14 Days.
